Summary

Computer Science undergraduate and product-focused developer with hands-on experience building **websites, web applications and digital products** through freelance work and real-world projects. Experienced in **frontend development, UI/UX design and client communication**, with ₹60,000+ generated through freelance product delivery. Built and contributed to products including **CampusCircle and Silvara**, while also gaining experience in client acquisition, requirement gathering, operations and sponsorship outreach.

Education

B-tech CSE

NXT Wave Institute Of Advanced Technologies • Hyderabad
06/2028

MPC

Narayana Junior College • Vijayawada
06/2022

SSC

Vishwabharathi School • Gudivada
05/2020

Skills

HTML5, CSS, JavaScript, Python, NodeJS, ExpressJS, UIUX, Figma

Experience

Sponsorship and operations team member

E-CELL NIAT • Hyderabad
07/2026 - Present

- Contribute to **event operations, coordination and execution**, helping organize activities and ensure smooth on-ground delivery.
- Support **sponsorship outreach and communication**, including contacting potential sponsors and coordinating with external stakeholders.
- Assist with planning, follow-ups and execution of events while working with the wider team.

Web Developer

Freelance • Hyderabad
04/2026 - Present

- Delivered multiple **websites and web applications for real clients**, taking projects from requirement discussions through design, development and final delivery.
- Generated **₹60,000+ in freelance revenue** through independently delivered client projects.
- Worked directly with clients to understand requirements, translate ideas into functional products and iterate based on feedback.
- Designed and developed responsive interfaces using **HTML, CSS, JavaScript, React and Figma**, depending on project requirements.

- Acquired clients through **cold calls and email outreach**, handling initial communication and converting requirements into project opportunities.
 - Managed projects independently across **client communication, UI/UX, frontend development and delivery**.
-

Projects

Silvara — Product UI/UX & Frontend Contributor

UI/UX Design · Frontend Development

- Designed and developed major portions of the **Silvara company's application interface and website**, contributing directly to the product's visual and user experience.
- Translated product requirements into responsive interfaces and implemented significant **frontend changes** to improve the overall usability and presentation of the product.
- Worked across both **UI/UX design and frontend development**, connecting design decisions with practical implementation.
- Contributed to the delivery of an actual company product rather than a standalone academic or tutorial project.

CampusCircle — Full-Stack Social Platform

React Native · Expo · Node.js · Express · MongoDB · Redis

- Built **CampusCircle**, an anonymous campus discussion platform designed to give students a dedicated space to share and discover campus-related content.
 - Developed core product functionality including **posts, feeds, comments, upvotes and user authentication**, contributing to the platform's end-to-end experience.
 - Worked on backend performance by implementing **pagination, Redis caching and feed optimization** to address slow feed and interaction performance.
 - Contributed to platform reliability and security through **rate limiting, authentication/session management, reporting and backend safeguards**.
 - Designed the architecture with scalability in mind, targeting a platform capable of supporting approximately **2,000 users**.
