

Munnangi Vivek

Phone: 9063676565 | Email: munnangivivek369@gmail.com | Andhra Pradesh, Gudivada – 521301

Objective

Seeking Software Development, Product Management or UI/UX Design internship opportunities to build impactful products and grow in a collaborative engineering team.

Skills

- Frontend: HTML, CSS, JavaScript, React.js
- Design: UI/UX Design, Figma, Canva
- Backend: Python, Node.js
- Other: AI Prompting, Git, Linux Basics, Communication Skills, Vibe Coding Platforms

Projects

- **Campus Circle** – Anonymous student community platform built with React Native, Node.js, MongoDB and WebSockets, engineered for scalable real-time interactions and 1000+ active users.
- **This Portfolio** – Interactive comic-style portfolio built with React, Vite and Framer Motion featuring custom animations and responsive UI.
- **Silvra App** – Premium mobile app UI/UX designed for a freelance client with luxury branding, user flows and high-fidelity prototypes.
- **Vanaga Portfolio** – Responsive portfolio website developed for a freelance client using React and reusable components.
- **Multiple Landing Pages** – Designed responsive landing pages focused on conversion, branding and user experience.
- **Designathon Projects** – Built interactive dashboards and product prototypes during design competitions under tight deadlines.

Additional Design Work

Created branding assets including posters, banners and logos for multiple projects.
